

NOTICE ABOUT 2020 TAX RATES

Property Tax Rates in City of Nassau Bay

This notice concerns the 2020 property tax rates for City of Nassau Bay. This notice provides information about two tax rates. The no-new-revenue tax rate would impose the same amount of taxes as last year if you compare properties taxed in both years. The voter-approval tax rate is the highest tax rate a taxing unit can adopt without holding an election. In each case, these rates are calculated by dividing the total amount of taxes by the current taxable value with adjustments as required by state law. The rates are given per \$100 of property value.

This year's no-new-revenue tax rate:	\$0.711940
This year's voter-approval tax rate:	\$0.735008

NOTICE OF PUBLIC HEARING ON TAX INCREASE

A tax rate of 0.722120 per \$100 valuation has been proposed by the governing body of the City of Nassau Bay.

PROPOSED TAX RATE	\$0.722120 per \$100
NO-NEW REVENUE TAX RATE	\$0.711940 per \$100
VOTER-APPROVAL TAX RATE	\$0.735008 per \$100
DE MINIMIS RATE	\$0.772472 per \$100

The no-new-revenue tax rate is the tax rate for the 2020 tax year that will raise the same amount of property tax revenue for the City of Nassau Bay from the same properties in both the 2019 tax year and the 2020 tax year.

The voter-approval tax rate is the highest tax rate that the City of Nassau Bay may adopt without holding an election to seek voter approval of the rate, unless the de minimis rate for the City of Nassau Bay exceeds the voter-approval rate for the City of Nassau Bay.

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate for the City of Nassau Bay, the rate that will raise \$500,000, and the current debt rate for the City of Nassau Bay.

The proposed tax rate is greater than the no-new-revenue tax rate. This means that the City of Nassau Bay is proposing to increase property taxes for the 2020 tax year.

A public hearing on the proposed tax rate will be held on September 14, 2020 at 7:00 pm at the Virtual Council Meeting the details of which can be found at www.nassaubay.com/CityCouncil or by contacting the City at 281-333-4211.

The proposed tax rate is greater than the voter-approval tax rate but not greater than the de minimis rate. However, the proposed tax rate exceeds the rate that allows voters to petition for an election under Section 26.075, Tax Code. If the City of Nassau Bay adopts the proposed tax rate, the qualified voters of the City of Nassau Bay may petition the City of Nassau Bay to require an election to be held to determine whether to reduce the proposed tax rate. If a majority of the voters reject the proposed tax rate, the tax rate of the City of Nassau Bay will be the voter-approval tax rate of the City of Nassau Bay.

DE MINIMIS RATE ADDENDUM:

The City of Nassau Bay proposes a tax rate that exceeds the voter-approval tax rate. Therefore, Section 26.06 of the Tax Code requires City of Nassau Bay to publish the above notice of a public hearing. However, for City of Nassau Bay, the de minimis rate exceeds the voter-approval rate. Therefore, the below additional notice information applies to City of Nassau Bay.

DE MINIMIS RATE	\$.772472 per \$100
-----------------	---------------------

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate for City of Nassau Bay, the rate that will raise \$500,000, and the current debt rate for City of Nassau Bay.

The proposed tax rate is greater than the voter-approval tax rate but not greater than the de minimis rate. In addition, the proposed tax rate does not exceed the rate that allows voters to petition for an election under Section 26.075, Tax Code. Therefore, if City of Nassau Bay adopts the proposed rate, the City of Nassau Bay is not required to hold an election for voters to accept or reject the proposed tax rate.

YOUR TAXES OWED UNDER ANY OF THE ABOVE RATES CAN BE CALCULATED AS FOLLOWS:

$$\text{Property tax amount} = (\text{tax rate}) \times (\text{taxable value of your property}) / 100$$

The members of the governing body voted on the proposed tax rate increase as follows:

FOR: Denman, Matter, Graves, Mahon, Klug, Warters, Prior

AGAINST: n/a

PRESENT and not voting: n/a

ABSENT: n/a

The 86th Texas Legislature modified the manner in which the voter-approval tax rate is calculated to limit the rate of growth of property taxes in the state.

The following table compares the taxes imposed on the average residence homestead by the City of Nassau Bay last year to the taxes proposed to be imposed on the average residence homestead by the City of Nassau Bay this year:

	2019	2020	Change
Total Tax Rate (per \$100 of value)	\$0.732120	\$0.722120	Decrease of \$0.01000 or 1.37%
Average homestead taxable value	\$276,401	\$288,596	Increase of 4.41%
Tax on average homestead	\$2,024	\$2,084	Increase of \$60 or 2.98%
Total tax levy on all properties	\$4,972,924	\$3,990,541	Decrease of \$982,383

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller For 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements* or Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do use this form but instead use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed water District Voter-Approval Tax Rate Worksheet*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

STEP 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

STEP 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

1. Maintenance and Operations (M&O) Tax Rate: The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.

2. Debt Rate: The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

STEP 3 NNR Tax Rate and Voter-Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes		

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

STEP 4: Additional Rollback Protection for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O Funds to pay for a facility, device or method for the control of air, water or land pollution.

STEP 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the difference between the adopted tax rate and voter-approval tax rate before the unused increment rate for the prior three years [39]. In a year where a special taxing unit adopts a rate above the voter-approval tax rate by applying any portion of the unused increment rate, the unused increment rate for that year would be zero.

For each tax year before 2020, the difference between the adopted tax rate and voter-approval rate is considered zero, therefore the unused increment rate for 2020 is zero.[40]

This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit. [41]

Line	Activity	Amount/Rate
61.	2019 unused increment rate. Subtract the 2019 actual tax rate and the 2019 unused increment rate from the 2019 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2020, enter zero.	0.000000
62.	2018 unused increment rate. Subtract the 2018 actual tax rate and the 2018 unused increment rate from the 2018 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2020, enter zero.	0.000000
63.	2017 unused increment rate. Subtract the 2017 actual tax rate and the 2017 unused increment rate from the 2017 voter-approval tax rate. If the number is less than zero, enter zero. If the year is prior to 2020, enter zero.	0.000000

STEP 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit.[42]

This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit. [43]
