January 6th, 2020

Dena Mahan
Office of Emergency Management
1800 Space Park Drive
Houston, TX 77058

Dear Ms. Mahan and City of Nassau Bay:

On behalf of the Houston/Galveston StormReady Advisory Board, I would like to congratulate you on StormReady renewal for the City of Nassau Bay which recognizes the measures taken and plans made to prepare Nassau Bay for severe weather. The city has multiple ways to receive weather warnings and get the information to their citizens. Nassau Bay also has an active severe weather preparedness and education program. The StormReady recognition is valid for three years from certification and each renewal. The next renewal date will be December 9th, 2022. You can apply for re-certification prior to that date.

As a StormReady community, Nassau Bay is authorized to use the StormReady logo on official letterheads, brochures, or other suitable documents. You can acquire a digital file of the logo image from the Houston/Galveston National Weather Service Office.

At the recognition ceremony you received a StormReady Community sign. You are authorized to purchase additional signs and other materials (stickers, etc.). For more information on ordering additional signs or other materials refer to this web site:

http://www.stormready.noaa.gov/logos_signs.shtml.

If Nassau Bay participates in the National Flood Insurance Program, it may now be eligible for 25 additional Insurance Service Organization (ISO) community rating system points. I recommend the StormReady Community information be supplied to appropriate officials during the next ISO rating.

We at the National Weather Service look forward to our continued partnership with Nassau Bay Emergency Management to keep residents warned and as prepared as possible for severe weather.

Sincerely,

Dan Reilly
Warning Coordination Meteorologist
